SPIN Dementia Network+ announces Network Sandpit and Flexible Fund

**Sandpit Event: 'Repurposing and
designing for brain health in
neurodegeneration'**

When?

Monday, 3rd March, Health Innovation South West, Exeter, UK.

Who to attend?

We are inviting researchers to apply to attend. Limited travel budget is available for ECRs.

Deadline for applications

23.59 on Monday 10th February 2025.

To find out more and access the application form, please [visit our website](#).

Announcing SPIN-D Network Plus Flexible

Applications OPEN
31st January to 31st March 2025.

SPIN-D is pleased to announce the first call for projects under the Flexible Funding initiative, aimed at Early Career Researchers.

We wish to fund projects that will delve deeper into our understanding of dementia, or share findings from previous studies. We are interested in the role that different risk factors can play in determining whether people go on to develop dementia, and how symptoms advance. We are also interested in projects that test ways to reduce dementia risk and improve care and support for those living with dementia in their own homes.
